Danger ahead! The engineer doesn't see the broken rail. There is sure to be a terrible wreck. There's a wreck ahead for you if you pay no attention to your weak throat and lungs.

Ayer's Cherry Pectoral

Weak throats and weak lungs easily give way. Some extra strain, as a fresh cold, and you are down with bronchitis or pneumonia. Better strengthen these weak places before it is too late. Ayer's Cherry Pectoral heals these irritable throats, gives tone to the relaxed membranes, and imparts strength to the lungs.

There are many substitutes and imitations. Beware of them! Be sure you get Ayer's Cherry Pectoral.

Two sizes. Large and small bottles.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

Butter Suit You?

Has it got a mouldy back number taste that takes away your appetite for that thick, juicy steak, you would have otherwise enjoyed?

Crystal Springs Butter

will create an appetite—not take it away. It's as pure, sweet and fresh as the clover pastures from which it comes.

CLAIM CAPTAIN SHOT A SAILOR

CAPT. WESLEY OF CHILIAN SHIP OTHELLO DISRATED JAPANESE CREW.

A warrant charging Captain Wesley of the Chilean ship Othello with assault with a deadly weapon was issued last night and placed in the hands of Captain Harry Flint for services. The Othello was anchored off Puuloa and Flint went at once in quest of the captain to make the arrest. Captain Wesley is charged with shooting a Japanese sailor named Yasuda.

According to the statement of the Japanese and five of his countrymen, the men shipped some days ago as able seamen on the Othello. The vessel sailed for Port Townsend Saturday afternoon. The wind was very light and the vessel drifted in shore in the neighborhood of Pearl Harbor. Captain Wesley dropped both anchors. Evidently the captain did not think the Japanese sailors understood anything about sailing so he decided to secure another crew. The mate was sent ashore and came to Honolulu and secured four new Japanese sailors. When the latter joined the vessel Captain Wesley discharged the original six sailors. It is claimed that Yasuda was too slow getting over the side of the vessel and that the captain without provocation, shot him in the neck. No arrest of the captain was made by Captain of Police Durrant who was in the launch alongside the vessel. The wounded Jap was taken to the Queen's Hospital. The injury of the man is not serious.

It was reported yesterday that the Othello was aground so the tug Fearless went down to her assistance. It was discovered that while the vessel was close in shore she was not on the bottom so the services of the tug were not required.

BUILDING IN WAILUKU.

WAILUKU, March 18.—F. H. Jordan, who was awarded the contract for erecting the new Wailuku school house, is now on Maui, and has commenced operations on the building.

The construction of a new bank building will most likely be commenced the latter part of next week, on the vacant lot next to the old Baldwin Home.

GOOD PLUMBING is our forte, we don't do cheap work. You will find on exhibition in our store, all the latest fancy designs in bath room apparatus. We carry everything that goes to make up that most important part of a dwelling—the bath room—AND WE INSTALL IT RIGHT. Our plumbing is put in to last, we guarantee all work done by us, and can quote you the names of hundreds of satisfied customers.

It costs no more to have your plumbing and sewer connections done by us, and remember WE GUARANTEE THE WORK.

Progress Of The War

LONDON, March 6.—The London Daily Mail's Chetoo correspondent describes a visit he made to Chinampo. He says the country thence to Ping Yang is impassable, owing to the thaw. The villages are deserted and horses and provisions cannot be obtained, everything having been bought up by the Japanese.

"I am informed," adds the correspondent, "that there will be no advance until 100,000 men have been concentrated at Ping Yang. It is thawing inland, and the waterways have greatly helped the transportation arrangements. The Japanese are busy at every landing-place and are buying all suitable craft along the coast. Cossacks are keeping a sharp watch on the Japanese movements."

ST. PETERSBURG, March 6.—Advices from Vladivostok says that the 2500 Japanese troops who landed at Plaksin (on the east coast of Northern Korea) are advancing toward Musan (218 miles from Gensan) with the intention of ultimately reaching Hunchun (on the left bank of the Tumen river, about 100 miles west of Vladivostok) and threatening the Russian flank. In order to checkmate this move the Russian crossed the Tumen, is advancing to occupy Koryong, on the Tumen river, a walled city commanding the trails along which the Japanese must pass.

Cossack scouts report that the Japanese column from Ulaksin bay, on arriving in the snow-blockaded defile of the mountains separating Korea from Manchuria, was forced to halt, owing to avalanches and other obstacles. The scouts say that one-third of the strength of this column is invalided. It is now supposed that the column is returning for the purpose of seeking an easier route.

TOKIO, March 6.—The Russians are briskly fortifying Antung which, it is believed, they will make a base for resistance. Scouts near Anju are being withdrawn toward Kasan.

FORMAL OPENING OF THE AQUARIUM

WHERE THE WONDERFUL COLORING AND FANTASTIC SHAPES OF FISHES CAN BE SEEN.

The new aquarium at Waikiki near Sans Souci, was formally opened Saturday afternoon. The aquarium owes itself to the offer of Mr. and Mrs. Charles M. Cooke to build the building if James B. Castle would donate the land and the Rapid Transit and Land Company would equip and maintain it. The land is government land extending from the Waikiki road to the beach, leased to James B. Castle, the lease having seventeen years yet to run. There are four lots adjoining it on the Diamond Head side which are also government land under lease, having practically the same length of time to run. The land thus provided by Mr. Castle is valued at \$7,500. Mr. and Mrs. Cooke have spent about \$8,000 on the building, and the Rapid Transit Company has spent \$3,233 in preparing the site and the exhibit and \$355 additional in stocking it.

One of the conditions upon which Mr. and Mrs. Cooke agreed to build the aquarium was that it should be open one day in the week free to all. What day that will be has not been decided on, but it has been suggested that it be Saturday, so that the school children will have the opportunity of the leisure day of their week to visit it.

On other days of the week there will be an admittance fee charged of ten cents for adults and five cents for children. At least these will be the prices for the present.

The opening of the aquarium to the public on Saturday was under the auspices of the Rapid Transit Company. At 2:30 o'clock a large party of invited guests left the power house on special cars and were taken at once to the aquarium. Here the party spent some time in looking at the building and the 265 individual fish representing sixty varieties which are now in the aquarium. The building was designed by Architect Walter E. Pinkham, and was constructed under his direction. It consists of an octagonal building, somewhat in Japanese style of architecture. In the center of this is a pond in which there are a variety of fish, and radiating from this central portion are bays in which the aquaria are arranged on each side so that the fish may be seen conveniently and pleasantly. This was the first time many old residents of Honolulu had ever had an opportunity of seeing the wonderful variety of coloring for which the fish of these waters are noted.

After an opportunity had been given for all to go through the aquaria, President L. T. Peck of the Rapid Transit Company called all to the central building and introduced Lorrin A. Thurston who gave an account of the inception and cost of the institution and expressed the hope that on the expiration of the lease of the land together with that of the four adjoining lots, they would be conveyed to the Kapiolani Park Association so that the park would be given a sea and beach frontage. Mr. Peck introduced William T. Brigham, Director of the Bishop Museum, who spoke of the advantages Honolulu offered above all other places in the world, for an aquarium, and told of the plans that had been made for a marine laboratory on what is not the naval reservation seaward from the Honolulu Iron Works, plans which were frustrated by the reservation of that property for naval purposes.

Mr. Peck introduced Judge Dole who made a very pleasing address concerning the occasion which had gathered them together.

The aquarium is entered through a Japanese torii over which is a hideous sign announcing that it is the aquarium. The grounds have been planted with coconut, palms and grass, and when the grass has formed a sod will make the grounds very pleasing. A few benches for those who would enjoy the grounds as well as the aquarium would add greatly to the convenience for the public. The aquarium was thrown open to the public yesterday afternoon, and was largely attended.

Gay afternoon, and was largely attended.

COUNCIL OF THE CHURCHES ON HAWAII

AN ORGANIZATION TO INCLUDE ALL RACES IS FORMED AT HILO —CANDIDATES EXAMINED.

HILO, March 18.—The session of the Congressional Association of the Island of Hawaii in Hilo this week has been the most successful church convention ever held in this city. It has been attended with enthusiasm at its every session, and all who have participated in its labors go away with renewed determination for their work in their local vineyards during the coming year. The meeting here this week is the first under a new plan devised under the supervision of Rev. D. Scudder, Corresponding Secretary for the Hawaiian Board at Honolulu.

The assembly was duly organized Friday with Rev. William Kahiwaia of Kailua as Moderator and D. Alawa, Scribe. The first business was the presentation and adoption of a constitution. The constitution of the Oahu Congressional Assembly was used as a basis of discussion and guide. The idea prevailed that the constitutions for the different islands should be as nearly identical as practicable. This would simplify the work and make it easier for workers transferred from one district to another. The work was enthusiastically taken up by the delegates. The articles of the constitution were read and adopted one by one, a basis being reached on which all the churches of all nationalities could unite and work as one. In this work the most liberal sentiments prevailed, each nationality seeming to be anxious to forego the most in order to find common ground.

The reports from the individual churches showed all to be in fairly good condition. Some showed notable advances, others were holding their own and in only one or two instances was there a decline.

Monday, the convention resumed its labors, discussing the erection of parsonages and the financial condition of the Hawaiian Board. So far this year the debt of the Board has been increasing at the rate of \$2,100 per month. The debt now reaches nearly the \$10,000 mark. The delegates resolved to go home and labor hard to wipe out this debt. Monday afternoon the assembly adjourned while the Sunday School Association was in session. Reports were heard from all over the island showing a growing and healthy condition in the Sunday School work.

Tuesday an examination was held for applicants for licenses to preach. The following passed examinations and were granted licenses: S. K. Kawelo, Mo Man Wing, U Cho Ping, S. Sakabe, T. Inouwe and N. Washiyama. Rev. E. G. da Silva was elected a permanent member of the Association. Wednesday the subjects discussed were the support of pastors and Foreign and Home Missions. In the afternoon a delegation went out to Honouliuli to hold a meeting which was conducted in four languages. Mr. Scudder and Washiyama spoke in Japanese, Mr. Gullick in Hawaiian, Mr. da Silva in Portuguese and Mr. Thwing in Chinese.

FOR JAPANESE WAR FUND.

All of the theater-goers, and particularly those people who sympathize with the cause of Japan in her present struggle, should patronize the Takeda company which plans to contribute to the War Fund the net proceeds of a week's playing. The play will be a new drama called the "Russo-Japanese war." The audience will be furnished with a program printed in three languages, Japanese, Chinese and English —Hawaii Shindo.

Anti-Pain Pills

(Dr. Miles') prevent as well as cure headache, the commonest affliction of mankind. Carry in your pocket. No opiates. Non-laxative. There are no substitutes. Sold and guaranteed by a druggist. 25 Cents 25 cents. Never sold in bulk.

Dr. Miles Medical Co., Elkhart, Ind.

**Paint is to a Building**

what clothing is to the body. It is just as important. You should take as much care in selecting the paint to clothe your property, as you do in selecting the material to clothe your person. Paint preserves the building. Paint gives beauty to the building. In painting the labor costs more than the paint. There will be a large waste if the right paint is not used.

THE SHERWIN-WILLIAMS PAINT

is made for painting buildings. It is not a low-priced paint, but it is cheap because the best. It is made of the purest materials—that wear the longest. The colors are bright and handsome.
